...Carry Your Stethoscope Where The World Needs You

This is a 24 months junior doctor's postgraduate training and polish medical license programme that prepares you to practice as medical doctor in European union countries. This programme comes with partial scholarship and with monthly stipend of 1,500 euro for 13 months of your internship/training)

PROGRAMME DETAILS

This is a programme for doctors that want to be licensed and practice in Poland. To practice in Poland, candidate must write a licensing exam in Poland. This programme will prepare the candidate for all the exams. The exams include:

1. NIL Exam

NIL stands for **Naczelna Izba Lekarska** (The Polish Supreme Medical Chamber). However, when someone refers to the "NIL Exam" they usually mean the **Preliminary Verification Exam** organized by NIL for **non-EU foreign-trained doctors**.

- **Purpose:** It's not a standard exam, but an internal qualification or verification step used by NIL for recognizing foreign medical degrees (especially from outside the EU).
- **Who takes it:** International (non-EU) medical graduates applying to work in Poland as doctors.
- **Context:** Sometimes part of the initial recognition or nostrification process of a foreign medical degree.
- **Administered by:** NIL (Supreme Medical Chamber) in cooperation with the Ministry of Health.

2. LEK Exam

LEK stands for **Lekarski Egzamin Końcowy** (Final Medical Examination).

- **Purpose:** A **mandatory licensing exam** for medical graduates in Poland.
- **Who takes it:** All **medical students** graduating from Polish universities, or foreign-trained doctors (especially from non EU countries) who want to get licensed?
- **When:** Usually taken **at the end of the 6-year medical program** or during postgraduate training.
- **Language:** Usually in **Polish**, but **some sessions may be available in English** for foreign applicants. – We will prepare the candidate for the Polish language and medical terminologies.
- **Format:** Multiple-choice questions covering a wide range of medical topics.

- **Outcome:** Passing LEK is required to obtain a **full medical license** in Poland.

3. PES Exam

PES stands for **Państwowy Egzamin Specjalizacyjny** (State Specialization Examination).

- **Purpose:** A **national specialty exam** for doctors who have completed a specialization training program (residency) in Poland.
- **Who takes it:** Licensed doctors completing their postgraduate **specialization training** (e.g. in cardiology, internal medicine, surgery, etc.).
- **Outcome:** Required to become a **certified specialist** in a medical field in Poland.
- **Format:** Written exam (MCQs) and in some cases, practical/oral components depending on the specialty.

A GATEWAY TO INTERNATIONAL MEDICAL PRACTICE

This programme is designed for MD/MBBS degree holders or foreign trained medical doctors dreaming of practicing in Europe. The Junior Doctors Postgraduate Training and Polish Medical License Programme offer you a structured, career-boosting opportunity to:

- Obtain a medical license (PWZ) to practice in Poland and the European Union
- Complete fully accredited clinical internship training
- Receive up to 1,500 Euro and more as monthly stipends during training and residency
- Gain access to specialization (residency) opportunities in various medical fields
- Secure long-term medical careers in Poland and across the EU

WHY CHOOSE THIS PROGRAMME?

PATHWAY TO A EUROPEAN MEDICAL LICENSE

After passing the Nitrification and NIL exams and completing your 13-month clinical internship, you will be eligible for the Polish Medical License, legally allowing you to practice in Poland and, based on EU Directive 2005/36/WE, also in other EU countries (depending on national regulations).

Paid Clinical Training in Top Polish Hospitals

During your 13-month clinical training, you will earn a monthly stipend of approximately €1,500, with opportunities for additional part-time employment.

Specialization Opportunities (PG Residency)

After licensure, you can enter a free 4–6 year postgraduate specialization programme and receive
